**Summary** Shane Jenkins commented. `I honestly don't know that was intentional it was people being fired up and tired of the crap. For me the sentiment was we elect you slimey little creatures you better freaking hear us and it's deadly serious! They built a gallows outside , we the people..... For me I want an audit to authenticate every vote , throw the dead ones out and figure out how more voted than were registered , if trump loses then fine , but until then burn it down`
